AUTOMOBILE INSURANCE SYSTEM

TRAINEE NAME : PAVITHRA C

TRAINER'S NAME: MR.JAVEED MOHAMMED HUSNUDDIN

DESCRIPTION

- This is a full-stack Automobile Insurance Management System developed using Angular (Frontend), Spring Boot (Backend), and MySQL (Database).

- It allows users to register vehicles, submit insurance proposals, generate quotes, make payments, and receive policies. Officers can review proposals, manage policies, and activate/deactivate issued policies.
